NEW PRODUCTS

GXAC-UTC002 Transmission Cooler Kit

Once again, we have put our years of racing experience to good use. Just as cool oil is the life blood of a high-performance engine, so too is good cool Gear Oil. The racing life of your gear box can be extended indefinitely by installing a GEAR-X Transmission Oil Cooler System. This kit comes with a very efficient heavy-duty Transmission/differential oil cooler pump. The pump is lightweight, self-priming, and may be mounted in any position up to several feet away from the source of oil. The kit also includes a highly efficient 11"x7" Cooler and a 10-micron inline filter, all the Dash-8 Push lock fittings, Electric On/Off Switch, 10ft of Putlock high pressure hose are provided along with comprehensive instructions on fitting, wiring and plumbing the system to your Race car.
